

I.F.C. TO HOLD "BATTLE OF MUSIC"

19 Men Elected To Positions On The Tech

John T. Toland, '44, Of Features Dept., Elected To Jr. Board

Eighteen freshmen and one Sophomore were elected to the staff of The Tech, at a meeting of the Junior Board held in the News Room in the basement of Walker Memorial last Wednesday evening. The Managing Board at its weekly meeting last night approved these elections, and accordingly the election results were announced in the News Room last night.

The lone Sophomore elected at this time is John T. Toland, who was appointed to the Junior Board as Associate Features Editor, by virtue of his work for the features department of the paper since last October. Toland becomes the eighteenth member of the Junior Board of The Tech, and the third member of the Editorial Board of the Features page, which has been greatly expanded this volume.

Freshmen elected as reporters were Bruce Fabens, Donley J. Parr, William Pick, Jack L. Uretsky, and Milton A. Wideltz, while Ira Kessler and Robert M. Young were elected as assistants in the engraving department. Elected to the freshman staff as assistants in the Business Department were: Leslie

5:15 To Hold Gadget Carnival

Fraternities, Dorms Invited To Submit Complicated Machines

Rube Goldberg machines will be the theme of the annual 5:15 Club Carnival which is to be held in their Club room in the basement of Walker on Saturday, March 28. Any fraternity or dormitory is invited to submit an entry in the contest of screwy research which has for its object the performance of some simple task in as complicated a manner as possible "engineering" principles.

All entrants must notify the 5:15 Club either of their progress or intention of entering before March 20. The prizes are to be a keg of beer to the winning group, a case for second place, and a case of soft drinks for third. This third prize was decided upon by the committee as they do not feel that a third place inventor can handle anything stronger.

Alpha Phi Omega To Hold Election Of New Officers

The Technology Chapter of Alpha Phi Omega, the national scouting fraternity, will hold elections at their meeting tomorrow night at 7:30 P.M. in Tyler Lounge.

Nominees to date are: for president, Ernest C. Crocker, Jr., '43; vice-president, Robert B. Meny, '44, and Henry N. Bowes, '44; secretary, Morris H. Rosenthal, '43; treasurer, Henry G. Gastrich, '44; Alumni secretary, Virgil E. Otto, '43 and Albert J. Martin, '44; historian, Albert J. Martin, '44.

A banquet for the initiation ceremonies of ten pledges will be held on Wednesday, March 25. These include three new pledges: Charles A. Morton, '45; John P. Daneman, '45; and John J. Ebersberger, Jr., '45. The new officers will also be installed at the same time.

Harry Marshard

Sophomores Hear Placement Talk On Summer Jobs

Prof. Townsend And Mr. Nathaniel Sage Discuss Employment

To a capacity audience comprised of practically the entire Sophomore Class, Professor Arthur L. Townsend and Mr. Nathaniel M. Sage delivered lectures last Friday noon on summer placement for the Class of 1944. Professor Townsend spoke first on the general attitude of the Institute with regard to summer employment and the purposes which it could and should serve. Mr. Sage, Placement Officer for the Institute, followed Professor Townsend with an address on how students should go about getting a job.

(Continued on Page 4)

Debaters, T.C.A. Plan New Talks

Assembly Tomorrow Has As Discussion War Reconstruction

Post-war reconstruction, one of the most pressing of modern political problems, will be the theme of a series of open round-table conferences sponsored jointly by the Debating Society and the T.C.A. Professor Theodore Smith, of the department of English, is to provide introductory remarks for the first conference from 5:00 to 6:00 P.M., Wednesday, March 11, in Litchfield Lounge.

Organized as a round-table assembly, the discussion will enable representatives of national interests to express their views and to air their problems. In the course of the series, foreign students will be appointed to speak in behalf of their respective homelands as a part of gaining a world-wide perspective of reconstruction problems.

To make it possible for other students to participate, provision will be made for a group of students to represent the world as a whole. All students and professors who have any ideas as to how they would like to see the world organized after this present conflict are invited to attend.

Women Students Elect Organization Officers

Miss Barbara Green, '44, was chosen president of the Association of Women Students for the coming year at a recent meeting held by that organization.

Elected to assist Miss Green were Dorothy V. Dainowski, '44, vice-president; Harriet C. Aldrich, '44, secretary; and Marion H. Ferris, '45, treasurer.

Weekend Hailed As Success By Junior Prom Committee

Over 400 couples attended the Junior Prom Dance last Friday night in the Hotel Statler, and according to the committee the dance was a great success, at least socially. One faculty couple paid an indirect complement when they remarked that more people danced than was usual at such large functions, a tribute to Tommy Tucker's orchestra and to the atmosphere surrounding the dance.

A crowd of approximately 300 couples attended the informal dance held in Walker on Saturday evening and 325 couples attend the buffet dinner held before the dance. No indication on the number of guests attending the punch parties held by the six fraternities was available, but apparently they too were much enjoyed by all as was the Burton Room Tea held Sunday.

GAY COUPLE AT JUNIOR PROM

Pictured above is Robert W. Maxwell, '43, as he and Miss Karen Galberg enjoyed themselves at the Junior Prom held Friday night. Maxwell was recently elected Chairman of the Walker Memorial Committee.

Donahue And Marshard Will Open Musical War At Hotel Statler Dance

Sam Donahue

M. I. T. A. A. Nominates Six For President

Elections To Be Held March 24; Candidates Are From Many Sports

The Executive Committee of the M.I.T. Athletic Association has announced a list of six candidates who are recommended for nomination in the forthcoming election to be held on March 24. The candidates represent a cross-section of various sports and functions.

Those recommended include: William G. Franklin, Gymnastics; John E. Gardner, Field Day; John E. Harsch, Basketball; William Kirtledge, Lacrosse; Warren L. Knauer, Equipment; Kenneth R. Wadleigh, Track, all of the Class of '43. The election to be held will be for the position of President of the M.I.T.A.A.

Official Notice

To whom it may concern:

The gymnasium and its adjoining facilities in the Walker Memorial Building are again to be made available to the student body and the various activities for their use. The gymnasium may be used starting on Tuesday evening, March 10.

Lockers in Walker may be rented at the Office of the Superintendent of Buildings in Building 10. Walker Memorial Committee.

Frosh Debaters Beat Dartmouth

Technology's varsity debaters added another to their string of victories on Feb. 28, when George Keller, '45, and Bruce Lamberton, '45, defeated a Dartmouth team of Fred Brutschy and David List. The victory was made more significant by the fact that both members of the Institute squad were freshmen debating on the varsity for the first time.

With this performance the Debating Society also instituted a policy of recording each contest, and in this case the transcribed debate was delivered via WAAB and

Gay Party Spirit Expected at Event; Tickets At \$5.00 Go On Sale Soon

Under the stirring title of "The Battle of Music," the Interfraternity Conference will present at its annual dance this year the jive music of Sam Donahue's band arrayed against the sweet swing of Harry Marshard's orchestra. According to the announcement made by Warren E. Foster, '43, chairman of the dance committee, the musical war will last from 9:30 P.M. to 3:00 A.M. in the Imperial Ball Room of the Hotel Statler on Friday, March 27.

The two-orchestra idea has been adopted in an effort to reduce the excessive formality which characterizes many Technology dances, and other plans are under consideration with this theme in mind. Both bands are to play alternate half-hour stands. It is hoped that the competitive spirit between the orchestras will overflow into the audience and make the affair a real "party-party."

Tickets To Be Available To All

Although no date for ticket sales has been set, tickets will be released to the dormitories and released to the dormitories and com-

Dorm Bull Session At 6:00 Tonight

Professors, Students To Dine And Mingle At Informal Meeting

The dormitories are to hold their second "Bull Session Dinner" this evening at 6:00 P.M. in Pritchett Hall, Walker Memorial. About fourteen tables have been reserved, each to be graced by a member of the Institute staff, and to be adorned by seven admiring resident students.

Nothing in the way of novel departures, such as the "apple-polishers" of the last dinner, has been disclosed, but the affair is to be as successful as its predecessors, Joseph L. Kaufman, '44, committee chairman, promised.

The cost of the meal is to be sixty-five cents for each student, and the members of the teaching staff are to be the guests of their pupils.

(Continued on Page 4)

Candidates For Office Must Secure Blanks

Candidates for the following offices must secure nomination blanks and return them to the information office in the Lobby of Building 7 between today, March 10 and Wednesday, March 18. Elections will be held on Wednesday, March 25.

President, Vice-President, Secretary Treasurer, and two Institute Committee members for the freshman, Sophomore and Junior classes.

Permanent President and permanent secretary of the Senior class.

Eight members of the Beaver Key Society, to be chosen from the Sophomore class.

Candidates are cautioned to comply with the regulations of the Election Committee.

POST-WAR RECONSTRUCTION

With an eye to the future, the Debating Society and the T.C.A. will give Institute students a chance to discuss in an orderly and intelligent manner the reasons for America's being in the war. In a series of meetings, the first of which is scheduled for tomorrow, those Techmen who so desire will be able to air their views and to hear the views of others upon the matter of reconstruction after the war.

Although the job of winning the war is foremost in the minds of every loyal American, we must not lose sight of the fact that abolishing totalitarianism is only the beginning of the battle and that its substitute must be found so as to insure an enduring peace. We must not make the same mistake that was made at the end of the last war.

In order to stimulate constructive thinking on the question, this conference for post-war reconstruction will be organized as a round-table assembly of the representatives of several national interests. To make it possible for other students to participate, provision will be made for a group of students to represent the world as a whole. The T.C.A. and the Debating Society invite anyone with ideas of how the world should be organized after the war to take part in the conference.

A SUCCESSFUL JUNIOR PROM

The 1943 Junior Prom has passed, but it will, we hope, exert an influence upon future Technology Junior Proms for some time to come. The weekend experiment was considered by all who attended as a rip-roaring success and as an indication that such an affair would be actively supported by the student body.

The Junior Prom Committee gave the Class the sort of dance for which it had asked in a poll conducted earlier in the year. The Class in turn supplied the Committee with the kind of cooperation that alone can build a success. The Class of 1943 has blazed a trail for all succeeding classes to follow.

REPAIR AND CONSERVE

For three months, Techmen who are fortunate enough to own cars have been planning and conserving so that they would be able to use as long as possible those precious tires which are so necessary to the proper functioning of an automobile. They have avoided rough roads, driven more carefully, and stopped more slowly and with less screeching of brakes.

Now many of these car-owners face another hazard, a stretch of pavement from Walker Memorial to Building 6 that is pitted like the last lap of a cross country mile. For the sake of the appearance of the campus and the benefit of the automobilist whose tires are rapidly growing smooth, a thorough repair job should be made immediately upon that section of road described above.

ELECTIONS TO STAFF

Volume LXII takes pleasure in announcing the election of the following men to positions on The Tech: John T. Toland, '44, Associate Features Editor; Bruce Fabens, Donley J. Parr, William Pick, Jack L. Uretsky, and Milton A. Widelitz, all freshmen, reporters; Leslie M. Brindis, Stanley N. Hollander, Theodore C. Jay, Jr., Irwin M. Jennis, John H. Kellogg, Jr., Arnold M. Singer, John P. Whittemore, and Charles W. Ziebarth, all freshmen, business office; Francis A. Giori, Frank S. Pohanka, and Paul J. Dennehy, all freshmen, photographers; and Ira Kessler, and Robert M. Young, both freshmen, engravers.

For the learned few

The subject was 6.29, the new ultra-high frequency technique course. The class was tense, for the subject of the day was to be the workings of the klystron. The instructor was listing the various references on the board. He concluded with the following three before starting on his lecture. These were "The Theory of Klystron Oscillators," Journal of Applied Physics, Dec. 1939; "Cathode-Ray Amplifier," Electronics, April 1939; and Astounding Stories, Feb. 1941.

Rah! Rah! Rah!

Poetry seems to be becoming increasingly popular with the non-literati—that is to say with the E11, E12, E21, and E22-hating members of the Engineering gentry, studying at the Institute. Here's the latest example of Technology poetic endeavor. We don't know when this one was written, and we make no comments for or against the author's sentiments, so you can take it as you please.

"It isn't if you won or lost,
 It's how you played the game.
 And vict'ry's hardly worth the cost
 If all you gain is fame."

I guess that's how our athletes feel,
 To judge them by their wins;
 For they develop feet of clay
 Whene'er the game begins.

Oh, Doctor Compton, couldn't we
 Just subsidize a few—
 We'd gladly pay their salary
 And teach them 8.02.

Helpful Fellow

The height of wolfing came last Sunday afternoon and night when a helpful fellow offered to help one of his fraternity brothers drive his Junior Prom date back to Vassar. However, the wolf coyly didn't do any of the driving until after the date was out of the car.

You Mean Me

At last Friday night's swimming meet a coach from one of the visiting teams was heard to call from one end of the pool "Hey Slim!". Everyone looking around to see just who was meant was slightly amazed to see Coach John Tarosh look up and answer the call.

Valet Service

The Junior Prom brought about the annual struggle of donning full dress. As usual there was the full amount of trouble connected with the dressing of the Junior class by the valet freshman. The grand rush started at 5:00 and lasted until the last tie was tied (?) and the last piece of dandruff was brushed from the manly shoulders of the Casanova Juniors.

Freshman organized themselves into dressing squads. Each squad, consisting of four men, was assigned the responsibility of attiring a Junior in such a manner that he would hold together for the rest of the evening. One man would round up a tie and some cuffs, while another would press the pants of a Junior with two waffle irons borrowed from the Grill Diner. Still another freshman would shave the Junior and trim his nails (toes included) so that he might delight his date. The one remaining man would take on the most important duty of soothing the Junior, and preparing him for the ordeal ahead. This preparation consisted of playing records, telling the victim the pitfalls ahead, and advising him of the facts of life. For three hours buttons flew, ties flew, and profane language flew. At last everything seemed ready to send the he-men off to the dance, but as usual fate took a hand. The suspenders were left on the outside and the collar flew open. After a hurried conference and a glance at Timoshenko, the freshman anchored everything in place, and the Junior was put on his own.

For Boys To Play

By Gene Schnell

... scientists Dick Childerhose and retinue recently discovered a new and most revolutionary principle while experimenting in the Entertainment Engineering laboratories. Having analyzed theoretically the possibilities of the evolution of the Junior Prom into a "party" week-end, the supreme practical test was initiated last Friday, and as far as the entertainment results are concerned they surpassed all hoped for expectations, both quantitatively and qualitatively.

... starting off in a formal vein with the Junior Prom proper, which in itself attained universal acclaim, Tech funsters were treated to five hours of flowing entertainment, if you know what we mean. Both Tommy Tucker's music as well as the many private-room parties undoubtedly were largely responsible for making the dance a success, while the Statler Bar also seemed to be doing its part.

... Saturday saw the institution of fraternity punch parties as an integral part of the party week-end. Using an infamous Chi Phi recipe for the basic ingredients at the several Bacchus fountains, the various houses were indeed pleasant hosts to the numerous folk floating around on the "Sea-Breezes" which in many cases more resembled oceanic typhoons.

... completing the Saturday schedule were the informal buffet dinner and the informal dance in Walker Memorial. Roly Rogers, local find, supplied some excellent dancing rhythm. Sunday saw those still on the up-beat tapering off with unspiked tea and punch at the Burton Room tea.

... adding an extra attraction in the gay '90 spirit, the Dekes threw a rather authentic 1890 version of a bit of fun that reminds us of—should we say authentic Deke fun.

... looking ahead we find a rather entertaining suggestion for a swim party. Scheduled for the week-end of the twenty-second is an intra-mural swimming meet with the added attraction of ending the meet with mixed swimming. Maybe we can hold mixed water-polo competition—or should we?

... the revival of Sir James M. Barrie's "A Kiss For Cinderella" had its Boston debut last night at the Wilbur Theatre. High point of interest is the chance for Boston to see the acting of motion picture star, Luise Rainer. A special discount of 25 per cent for groups of ten or more is offered to students. The play will be in town for only a two-weeks engagement.

Collegiate Roundup

by Paul Talalay

... **Bomb Japanese Cities** is the verdict of ninety-two per cent of American College youth from East to West, a recent Student Opinion Survey reveals. To the question "Do you approve or disapprove of the U. S. air force bombing Japanese Cities, 63 per cent of those polled were unconditionally in favor of such action, while another 29% wished to restrict bombings to military objectives in those cities.

... Professors

Lee and Lillibridge of the Geology and Mechanical engineering departments at the University of

Idaho have advanced the theory that extensive bombings of Japan might result in displacement of the strata of the earth's crust, possibly resulting in devastating earthquakes. "Bombings themselves won't cause earthquakes, but there is the possibility, how actual or remote I don't know, that vibrations set up by continuous bombings might result in changing earth pressure which normally wouldn't occur for years," Professor Lee suggested. If faults that cause earthquakes in the island were almost at the "shifting point," repeated bombings might be the right factor to set off a quake, Lee said.

Writing Text Books Is Tough, Says Professor H. B. Phillips

Full Time War Effort

"We are doing what had to be done," said Professor Henry Bayard Phillips, head of the Department of Mathematics concerning the texts books which he has written for use here at the Institute. He said that the writing of text books is such an ungodly grind that young men who depend upon research to get ahead cannot be asked to attempt it. Writing his first book, "Analytical Geometry", in 1915, he has continued until now he has written about thirty books on various phases of mathematics.

Attended Johns Hopkins

Born in the town of Yadkin College, North Carolina, Professor Phillips first attended Erskine College in South Carolina, where he received his B.S. in Mathematics. Following this he went to Johns Hopkins to get his Ph.D. He said that while he was at Johns Hopkins, the students like those of any school, thought that theirs was the best. They had heard a little about a school in Boston called M.I.T., but the only thing they knew was that it had a Laboratory of Physical Chemistry.

He worked for the Boston Post from 1922 to 1924 as Radio Editor, and stated that it was the time when every boy in the country was building a radio. He had many letters asking how to construct a set. Finding that the job of writing a column every day was too much along with his work at the Institute, he therefore dropped the newspaper work.

Professor Phillips is somewhat worried over what he will do when his supply of tires wears out, as he is three miles from the nearest transportation at his home in Lincoln. Concerning the conflict, he feels that the first World War was a pike compared to what is happening now. With almost fifty per cent of his department doing full time war work, he finds his work here greatly increased. During the last war, Professor Phillips took a course in the Coast Artillery officer's school at Fort Monroe, Virginia and did special work at the Naval Experimental Station in New London, Connecticut.

He first came to Institute for a visit in 1904, and was showed around the old buildings on Boylston Street by no other than Willy Jackson. Coming from Baltimore on the Federal Express, he says that the schedule now is little or no improvement over what it was then.

Professor Phillips came to Technology as instructor in 1907 after teaching for several years at the University of Cincinnati. Since then he has stayed at the Institute, becoming a full professor in 1927, and the head of the Mathematics department in 1934.

He says that with the work at the Institute, there is little time to do anything else, and he therefore has no hobbies. He is very proud of his two sons.

Connecticut State Falls Saturday; Natators Split Triangle Meet Friday

220 & 440 Marks Set By Pepper Against W.P.I. And Mass. State

Finishing their regular season in a blaze of glory, the varsity swimming team last Saturday afternoon dunked Connecticut State by the score of 57-18. This followed a second place in a triangular meet with Massachusetts State and Worcester Tech on Friday night. Mass State won with 73 points, and Tech followed with 20.

Ed Pepper broke both the Institute 220 and 440 yard freestyle records in the Triangular meet Friday. The first with the time 2:28.7, and the other with 5:30.7. Jack Hunn and Bob Reebe also took first and second in this meet in the diving event. The final freestyle relay see-sawed back and forth between Mass. State and Tech to have Captain Bill Denhard finally out touched to lose the event.

Miss One First
In the Saturday meet our varsity took every first except the 150 yard backstroke with good but not exceptional times made.

The outstanding showing in Friday night's meet was made by Jodka of Massachusetts State who beat Jack Loveland in the 200 yard breaststroke by a small margin, and then dove right back in again to take a close second in the 440 yard freestyle.

The freshman swimming team in the preliminary meet Friday closed their season by defeating the Worcester Tech freshmen 58-8. The team took first and second in every event except the 100 yard freestyle in which they took first and third.

Record Tied, Broken

Russ Foust swimming the 220 yard freestyle tied the old institute record in this meet only to have it broken by the varsity an hour later. Jim Leonard, who last week set an Institute record in the 100 yard freestyle at 55.7 seconds, swam an excellent race to win the 100 yard freestyle and swam as anchor man on the medley relay team which brought the freshman record down to 1:24.8.

Next weekend the varsity and a relay team of freshmen will go to New England Intercollegiate Championships at Amherst. The varsity expects to be represented in the finals by Jack Hunn, diving, Ed Pepper, swimming either 220 or 440, Jack Loveland, breaststroking, and the medley relay team which set the Institute record against B.U. last week, according to Coach John J. Jarosh.

Hunn is expected the place near the top if not Champion, and the medley relay team is expected to do well, said Jarosh who also feels that the team will finish in the second division although a long way from the bottom.

Army Ekes Victory Over Five Beaver Pistoleers

The team which gave West Point, potential source of national defense, its stiffest competition this season consisted of five men from Technology, in a meet Saturday, February 28th, at West Point. Led by Gage Crocker, the Beaver Pistoleers shot out a score of 1274, which nearly met the cadets' 1358.

Gage Crocker alone shot a score of 276 out of a possible 300. He was also the high man in the M.I.T. meet with Annapolis in January. The individual scores for Tech were: Gage H. Crocker 276, George H. White 257, M. D. Banus 255, John Cantlin (Capt.) 248, Alan Katzenstein 238.

Fencemen Duel Cantabs Tonight In Hangar Gym

Swordsmen Seek Third Win Over Harvard Fencers

Seeking a third win against the Cantab swordsman in as many years, the varsity fencing team will face Harvard in the Hangar Gym tonight at 7:30 P.M. The fencers have already cleared a strong Brown team from their schedule and have hopes of a victory. Co-captains Kellogg and Hinchman will support their team-mates, while the addition of a new member in the saber class, Van Wickel, will strengthen the team.

The varsity will be gunning for revenge for the defeat which the frosh team suffered last night when the Cantab yearlings downed them by a 17-10 count. The score was close in both the foil and epee divisions, Harvard copping them both 5-4. Worse luck was suffered by Beavers in the saber class which they dropped 7-2.

Suffering from the abolition of Physical Training the freshman have had little success this season. From a squad originally claiming fifty participants, all but a dozen have drifted away. This accounts for the recent losses.

Meeting Phillip's Andover Academy on February 25 the Frosh had to rely upon one man, Horn, in each of the three classes. Despite

(Continued on Page 4)

Crew Spotligthed; Practice Begun

Schedule Released; Harvard, Navy, Penn Invited To Regattas

Spring is here again, and one of Tech's most important sports is once more taking the spotlight. The varsity is virtually intact, but the new ruling that makes participation in a sport voluntary has hindered the freshmen crews greatly. Once again we have been presented with a swell schedule and there is plenty of opportunity for everybody to see our crews in action. The schedule is as follows:

- | | |
|----------|---|
| April 25 | Row Cup, Cambridge. Harvard, Boston University, Syracuse and M.I.T. |
| May 2 | Compton Cup, Princeton. Princeton, Harvard, Syracuse, M.I.T. |
| May 16 | Adams Cup, Cambridge. Harvard, Pennsylvania, Navy, M.I.T. |
| May 16 | Henley Race, Princeton. For 150 lb. class exclusively; eight crews participating, as yet undecided. |

The above schedule is that of the varsity heavys. The schedule for the varsity 150 pounders and freshmen has not been released to date.

As of today, the varsity heavy boats stood as follows—first: Lehman, Flowers, Soderberg, Spitz, Taft, Bakker, Leader, Malloch, Wengenroth (cox); second: De Voe, Tyberghen, McGuire, Bowen, Madwed, Walz, Theide, Sebell, Clauson (cox); third: Heller, Cobb, Maxson, Goodfriend, Hardie, Hewes, Selkie, Turner, Laird (cox).

Head Coach Bob Moch stated yesterday that the varsity was coming along very well. He immediately added that they had a long way to go and not much time to do it in, but reiterated that they were progressing rapidly and well. The serious setback that all sports have received at Tech hit crew hard. The early graduation of the seniors has eliminated many good men but we shall certainly have the best that can be made from the material at hand.

Relay Quartet Breaks Record

Takes Fourth Place At New York City In Fast I.C.—4A Race

Breaking the Technology mile relay record for the third time this year, four Tech trackmen took a prominent part in the 21st annual I.C.4-A meet in New York on Saturday. Beating such teams as Fordham, Boston College and St. Johns', the team captured two points by taking fourth place in the relay. The quartet, composed of Bob Meny, Lawrence Stewart, Gene Brady, and Sid Hall, first ran in the trials again Villanova, Manhattan, and Fordham. The winning time, that of Villanova, was 3:25.1, while Tech placed second with 3:26. These two squads were then eligible for the finals, which were held two hours later.

The same team in the same order then competed with Boston College, Colgate, Georgetown, St. Johns, and Villanova. The Tech stars showed their training and conditioning by lowering their former time and taking fourth place honors. The winner was Colgate as its team sped to the ribbon in 3:21.4. Villanova and Georgetown arrived next in that order, followed very closely by M.I.T., St. John's and Boston College.

Although they have competed before, this was the first time the Beaver representatives have scored. The race this year was exceptionally fast, according to Oscar Hedlund, mentor of the track team, as Colgate and Fordham have been running the relay this season in times close to 3:20. The Institute record which then stood at 3:27.8 was shortened by 2.8 seconds. Also entering the relay competition in one of the largest entry lists in recent meets, were the following colleges and universities: Columbia, Fordham, Manhattan, New York University, Rhode Island State, Syracuse and Temple.

The contestants and their scores are:

- | |
|---|
| Bob Meny, Trial (1) 52.3s. Final (2) 51.8s. |
| Lawrence Stewart (1) 51.5s. (2) 51.4s. |
| Gene Brady (1) 50.6s. (2) 50.8s. |
| Sid Hall (1) 51.6s. (2) 51.0s. |
| Totals (1) 3:26.0. (2) 3:25. |

Stickmen Prep For Opener

Start Schedule On Gridiron April 14 Against Boston Club

The lacrosse team looks good, according to William R. Kittredge, '43, manager of the varsity squad. In a skirmish with Harvard last Thursday night, it became evident that Technology was going to have a much better team, perhaps the best in three years. The only cause for worry is a shortage of goalies. Last year's freshman goalie, a star, went to the Air Corps before he could do his stuff for the varsity.

Oustanding on the team are Robert C. Evans, '42, captain of the varsity; Ralph E. Leader, '43, and Alfred H. Heckel, Jr., '44, on the attack. For the defense, Calvin B. Dunwoody, '43, and Robert H. Given, '42, are prominent.

Opening the regular nine-game schedule is the contest with the Boston Lacrosse Club, on April 4th, here at Technology on the football field. Throughout the rest of April the schedule will correspond to that of last year. Six of the games will be played on home ground, the other three being away.

Elimination For Tech Swim Meet Begin March 19

The annual All Tech Swim Meet will start on Thursday afternoon March 19 at 5:00 P.M. with the elimination trials for the 50 yard freestyle, breaststroke, and backstroke. Friday afternoon at the same time the trial for the 150-yard medley relay and the 200 yard freestyle relay will be held.

This meet sponsored by the Tech Swim Club, is open to any undergraduate in the Institute who is not on either the varsity or freshman swimming team. Any residential group is also encouraged to enter a team as prizes will be given to both the winning team and the winning individual high scorer.

Unlimited entry will be the rule of the day; so any team can enter as many men as they wish in any event and any man can swim in as many events as he wishes.

Individuals or teams who want help in developing their stroke will find Gordon Smith, the freshman coach, and John J. Jarosh, the varsity coach at the pool any afternoon until the meet.

Gym Team Resumes Practise At Walker

The gym team will return to regular practice in the Walker Gym this afternoon, according to Bill Franklin, manager of the gym team. All freshmen are urged to report for practice at this time.

Council Approves Athletic Awards On Tuesday

Ernie Artz, Jerry Coe Receive Straight "T" In Basketball

At a meeting of the Advisory Council on Athletics, March 3, the following athletic awards were approved: cTc to O. B. Hartman, '43, Manager of Cross Country for 1941; tTt to J. E. Loveland, '42, Manager of Tennis for 1940; fTt to C. J. Ricker, '42, Manager of Fencing for 1940-1941; bTb to basketball team: E. F. Artz, '42, co-captain; J. T. Coe, '42, T. J. Dolan, '43, A. L. Hart, '44, A. T. Hillhouse, Jr., '43, A. A. delValle, '43, B. Levere, '42, G. C. Markas, '43, G. A. Schute, '44, C. S. Taft, '44, and J. L. Whelan, Jr., '42, co-captain.

Awarded the straight "T" were: E. F. Artz, '42, co-captain of Basketball and J. T. Coe, Basketball; E. R. Berry, '42 was awarded a bTb for his work as coach of the freshman basketball team.

Also announced were awards approved at an earlier meeting January 6, 1942: aTa to F. T. Herlihy, '42, Manager of Track for 1940-1941; aTf, Soccer to W. G. Abbott, III, '44, W. W. Carpenter, Jr., '44, E. C. Chapin, '44, J. S. Ewing, '42, R. J. Fay, '42, Captain, S. M. Fenman, '42, R. C. Grant, '44, A. H. Heckel, '44, P. Stig-Neilsen, '44, R. S. LaVallee, '44, A. F. Peterson, Jr., '44, K. T. Momose, '44, and J. Saenz, '44; aTc, Cross-Country to E. J. Brady, Jr., '42, A. S. Gow, '42, Captain; K. W. Shaw, '42, R. L. Kelly, Jr., '42, M. A. McGregor, '42, and R. A. Miller, '43.

H. P. McCarthy Announces Hoop Lineup

Sixteen Basketball Quintets Chosen For Cage Tourney

Of some seventy teams seeking entry in the two divisions of the Tech Hoop Tourney the following sixteen quintets have been selected by H. P. McCarthy.

Class A includes Attleboro, Brookline, Chelsea, Lynn Classical, New Bedford, Rindge Technical, Taunton and an eighth team which will be the winner of the North Shore Tournament. In Class B the competitors will be Braintree, Belmont, Chelmsford, Framingham, Franklin, Lexington, Newburyport, and Rockland.

Instead of the Hangar Gym as in the past the Tufts Gymnasium instead will be the scene of the annual highschool basketball tourney conducted by the Physical Education Department of M.I.T. The purpose of the tournament is to choose the leading high school quintet of greater Boston. Prof. Clarence P. Houston of Tufts, better known as Pop Houston, has offered the use of the facilities at Tufts since Hangar Gym will not be available for the occasion. The tourney which was developed by H. P. McCarthy seventeen years ago has proved a financial and competitive success including the class B division which was added several years ago.

The games will get under way on Thursday afternoon and will continue through that evening until the first round has been completed. The semi-final round will be contested on Friday evening and the two surviving aggregations will struggle for Class A championship honors the following evening. The first round in the B division will be run off on Wednesday afternoon while the semi-final and final frays will take place on Friday and Saturday afternoon. The winning teams in each class will receive a silver plaque while the runner up quintets will get a silver basketball.

Riflemen To Hold Triangular Meet

The Beaver riflemen will play host to the Harvard and Norwich teams on Wednesday when the teams will meet in a triangular competition here at the Technology rifle range. The team has turned in several fine performance this season and they are expected to do well against the invading squads. The starting lineup will probably be the same as in previous matches which includes Captain Gannon, Garrett, Woodworth, Wood, Darry, Lorence, Adams, Weisenthal, and Harker who also serves in the capacity of the teams manager.

So far this season the team has had varied success in its meets. In a joint trip with the gym team to McGill University in Canada the riflemen, handicapped by a different type of target and method of scoring, lost by a very close count. Likewise Coach Woicacks boys were nosed out in close contests by both Yale and N.Y.U. Early in the season they downed the Harvard employees in the second match.

On March 21 the team will again play host in a triangular meet with the U.S. Coast Guard Academy and Northeastern University here at the Tech rifle range.

E. E. Dept. To Hold Bull Session Dinner

Eta Kappa Nu Sponsors Informal Affair Next Tuesday In Walker

A Bull Session Dinner exclusively for the Electrical Engineering Department is to set a precedent next Tuesday, March 17, when the embryo electrical engineers of all classes will meet with their department professors, instructors, and lab assistants whom they've invited in Pritchett Hall, Walker Memorial at 6:15 P.M. for dinner and a "grand get-together" afterwards.

The affair, which is being sponsored by Eta Kappa Nu, the national honorary electrical engineering society, will cost 95c. at the dinner for students and staff members alike. Its purpose is to instill a more friendly and informal relationship between the faculty members and students in the Electrical Engineering department. For this reason the affair will be the first of many others.

Student Groups Invite Staff Members

Groups of up to seven students are to each invite some member on the department staff. The names of the men in each group plus the faculty member invited should be listed on special blanks available in department headquarters, Room 4-202.

Those electrical engineering students who wish to attend the dinner, but who can not locate a group, may leave their names at the department headquarters and they will be assigned a group, a table, and a professor.

Fencing

(Continued from Page 3)

his efforts the team was swamped 18 to 9.

In a later match with Worcester Academy last Saturday, an improving group yielded only 16 points while they took 11 themselves. Horn again did his part by winning his three bouts in the epee class.

Debating Society

the Colonial network on the following Saturday afternoon. The subject of which M.I.T. held the affirmative was "Resolved: that all protective tariffs which do not apply to infant industries should be abolished by the United States."

Harvard Defeats Frosh

The freshmen team, however, was less successful last Friday. John Colton and Harold Steiner, arguing for the establishment of a permanent union with Great Britain, were defeated by the Harvard frosh.

Institute debaters will perform twice tomorrow afternoon. John Rueckert, '45, and Lee Hanower, '45, will meet Tufts in a squad debate on the subject "Resolved: that the federal government should regulate by law all labor unions in the Union States." This contest will be held in the Faculty Lounge and will commence at 5:00 P.M. At 7:30 P.M. in the Litchfield Lounge, George Musgrave, '43, and Philip Bendt, '42, will compete with the Colgate varsity on the same subject.

The Tech Elections

(Continued from Page 1)

M. Brindis, Stanley N. Hollander, Theodore C. Jay, Jr., Irwin M. Jennis, John H. Kellogg, Jr., Arnold M. Singer, John P. Whittemore, and Charles W. Ziebarth.

Elected to the staff as assistants in the Photography Department were Paul J. Dennehy, Francis A. Giori, and Frank S. Pohanka.

Spring elections for positions on The Tech staff as assistants in the Advertising, Circulation, News, Sports, and Photography Departments will be held at the end of the spring freshman competition which has just started.

Applicants for positions on the staff can register for the competition between 2:00 and 6:00 P.M., any weekday in the Business Office, Room 301, Walker Memorial,

Soph Placement

(Continued from Page 1)

Tells Advantages of Summer Jobs

Professor Townsend spoke in place of Dean Edward L. Moreland, absent because of illness. In his talk he stated that the Institute was heartily in favor of summer employment, calling it the next best thing to a cooperative course. This summer employment is particularly important as students can serve a real need and at the same time show to draft boards that they are helping their country and not wasting time.

In his talk, Mr. Sage explained the plan for securing employment for students where necessary and introduced Miss Bond who will serve as secretary for the special placement committee which has been established. He stated that approximately 40 per cent of the class should secure their own employment by utilizing the contacts of parents and friends.

After students have received their placement blanks, they should fill them out according to the directions and return them to their course placement officer immediately. In the meantime, aspirants should go to work independently on their own efforts to secure employment. Mr. Sage cautioned students against common faults in writing letters of application and concluded the lecture with a question period.

muters as soon as they are made available to the fraternities. This procedure is contrary to the usual practice of first offering the tickets to the fraternities exclusively before they may be obtained by dormitory residents and commuters. The ticket price is to be \$4.54 plus the ten percent luxury tax, which brings the total cost to \$5.00.

Both orchestras are priming themselves for the hostilities, preparations for the event being in full progress. With his saxophone and thirteen-piece band, Sam Donahue will feature Donna Mason and Fred Lane as vocalists. Also on the firing line of the Donahue forces and sharing spotlight honors will be Wayne Herdell on the piano, Harold Hahn, drummer-man, and Mitchell Paull, barrelhouse trumpeter.

Donahue Is Veteran

The musical clash at the I.F.C. dance will not be the first such experience for Donahue and his men. Only recently at Symphony Hall in the early hours of February 23 this band engaged Gene Krupa and his boys in a swing contest that made even the colored hepcats weak from exhaustion.

In contrast to Donahue's back-
